http(s) copied and pasted from the internet site you found for paragraph FOUR below

- 1 **Remember to SAVE TO YOUR FILE LOCKER!**
- 2 Right-align and single-space the **seven-line heading** - - like the one above
- 3 Double space the **five paragraphs** of your paper. Hint: Go to the menu bar to Format > Paragraph >Line Space>Double Space.
- 4 Edit your rough draft on the computer. Do a spell check too. Print out your rough draft.
- 5 Have another person edit your rough draft and write "Edited by _____" on the first page of the rough draft.
- 6 Make corrections on the computer according to the edited draft (those items with which you agree).
- 7 Go to Tools in the Menu Bar >Word Count. **Type** the word count on the final copy as shown in the heading above.
- 8 Print out and proofread your final copy. Staple final copy on top of rough draft.
- 9 Show paper to instructor and then place your assignment in your folder in the 2nd drawer of the tan file cabinet.

(500 words A; 400 words B; 300 words C)

Background: In this module you have learned that mirrors can change the direction of a laser. There are different types of lasers and intensifies to complete different types of tasks in fields such as medicine, communications, and industry. Fiber optics allow light to travel with information at very rapid speeds. The cladding on the outside of fiber optic cables aids in total internal reflection to help in distant transmission. Safe practices must be followed to prevent injury when working with lasers of all kinds.

Scenario: Lightning, Cable, and Telephone (LCT) now offers digital video, high-speed Internet connection, and fiber optic phone access to their customers in the cities they serve.

Randolph City has not approved any new installations for city businesses and residents. LCT is currently serving the city, but with old copper wiring and coax cable. In order for LCT to increase their profit and offer the city's customers newer and more efficient technology, immediate changes must be made in the city's communications network. As sales representative for Lightning, Cable, and Telephone, you must persuade the Randolph City Council to allow installation work to begin immediately for the transition to more current technology. Write an essay that persuades the Council.

1st Paragraph: Write an introduction by explaining the above scenario in your own words.

2nd Paragraph: Review the Paxton module or research the internet, and tell what materials would be needed to change from old original wire and cable now being used to installing your proposed materials? Include quantity, size, strength, and other factors that are important.

3rd Paragraph: Tell why your materials are better. What safety concerns are there?

4th paragraph: Go out to the Internet and research words pertaining to your critical writing; include what you have found (IN YOUR OWN WORDS).

5th Paragraph: What would you say or do to convince the city to allow you to install new communication materials, even though there would be some cost to the businesses and residents?
