http(s) copied and pasted from the internet site you found for paragraph FOUR below

- 1 **Remember to SAVE TO YOUR FILE LOCKER!**
- 2 Right-align and single-space the **seven-line heading** - - like the one above
- 3 Double space the **five paragraphs** of your paper. Hint: Go to the menu bar to Format > Paragraph >Line Space>Double Space.
- 4 Edit your rough draft on the computer. Do a spell check too. Print out your rough draft.
- 5 Have another person edit your rough draft and write "Edited by _____" on the first page of the rough draft.
- 6 Make corrections on the computer according to the edited draft (those items with which you agree).
- 7 Go to Tools in the Menu Bar >Word Count. **Type** the word count on the final copy as shown in the heading above.
- 8 Print out and proofread your final copy. Staple final copy on top of rough draft.
- 9 Show paper to instructor and then place your assignment in your folder in the 2nd drawer of the tan file cabinet.

(500 words A; 400 words B; 300 words C)

Background: In this module you have learned about 3D CAD programs as well as virtual CAD programs. You have created a variety of interior and exterior designs using these virtual programs.

Scenario: You are the owner of a company that develops architectural computer software, like the ones that you used in this module. Develop an advertising campaign to sell your product throughout the world. You need to include what you are selling and how it works, and your main focus should be on why people need to purchase your product. This assignment will be used to persuade possible buyers to purchase your product, thus creating a profit for you and your company. The more you sell, the more money you make!

Explain how you used these programs to design your project. Justify why you selected the virtual CAD programs to design your outcomes. Give specific examples of how you went through the design procedure to obtain your final result. Compare other designs to your design that you found when researching your problem. Tell how and why you came to your final conclusions. Discuss how a 3D or virtual CAD program like the one your company has developed helped create the final solution.

1st Paragraph: Write an introduction by explaining the above scenario in your own words.

2nd Paragraph: Give **three** (3) specific examples of how you changed and/or added to the virtual or 3D CAD software in your module to help you design your wonderful new architectural computer software.

3rd Paragraph: Give **two** (2) reasons why you selected virtual CAD programs instead of flat, hand drawings of floor plans. Write a description of what your virtual walk-through CAD program has to offer a potential buyer .

4th paragraph: Go out to the Internet and research words pertaining to your critical writing; include what you have found (IN YOUR OWN WORDS).

5th Paragraph: Write a closing summary arguing why your program will give buyers the best results.
