

#1	#2
----	----

Hour _____

ENVIRONMENT & ECOLOGY DB # 1 Water
Consumption

1. CHART (20):	
Does the chart effectively illustrate a workable, fair solution to the design brief (most effective way for a five-person family to use 2800 gallons of water per week)?	
2. QUALITY	
(10) Is the general quality of the project appropriate (neat, colorful, well designed)?	
(10) Is there a listing of how much water each distribution takes (how much per shower, how much for dishes, etc.)	
3. WATER DISTRIBUTION	
(10) Is the water distributed adequately (showers or bath, laundry, dishes, toilet, drinking, and any others)? (at least five)	
(10) Is each family member identified?	
(10) Is each person's allotted water consumption rate per day shown?	
(10) Is it shown that the total weekly consumption is less than 2800 gallons?	
4. PRESENTATION (10): Was the team presentation appropriate and of sufficient quality?	

5. **RESEARCH (10):** Have all questions in the "historical research" section been answered adequately? (four Q)

Partners divided the 4 Q's and A's? #1 _____ #2 _____
Did the partners share the other work equally? _____
